

## How to do early planning of a small-scale QI project in surgery: a framework

Domain	Must Do	Considered Helpful	Try NOT to
<p><b>1</b> Choose improvement team</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Select team members and assign roles and responsibilities</li> <li><input type="checkbox"/> Ensure sufficient time availability</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Keep team size small and nimble (less can be more)</li> <li><input type="checkbox"/> Choose at least one person with improvement experience</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Include members with minimal engagement</li> </ul>
<p><b>2</b> Detail the problem</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Learn about the problem (where it lies, why it exists, its impact, etc.)</li> <li><input type="checkbox"/> Ensure the problem exists locally (is there data?)</li> <li><input type="checkbox"/> Understand the problem from people who know the relevant process</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Collect input from team and stakeholders when detailing the problem (and defining aims)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Work on problems that require more resources than exist or are too complex to fix</li> </ul>
<p><b>3</b> Develop project aims</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Identify project aims using a SMART approach</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Describe patient benefits</li> <li><input type="checkbox"/> Obtain leadership support when addressing an organisational priority</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Create aims that require much more than 12 months to attain</li> </ul>
<p><b>4</b> Choose an intervention</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Be clear on why/how the chosen intervention will address the problem (including what evidence exists)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Seek leadership commitment, depending on focus and scope of intervention</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Select highly complex interventions or interventions that are not supported by stakeholders and/or evidence</li> </ul>
<p><b>5</b> Plan implementation of intervention</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Plan implementation (who/how/where/when, including start/finish and interim meetings)</li> <li><input type="checkbox"/> Determine if frontline clinicians/staff are agreeable, have time/engagement, and are ready to implement</li> <li><input type="checkbox"/> Determine what/how data will be used</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Communicate the project to frontline staff and stakeholders before, during, and after</li> <li><input type="checkbox"/> Think of potential problems and contingencies</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Start without frontline input</li> <li><input type="checkbox"/> Assume frontline stakeholders have sufficient time, capacity, and are ready</li> <li><input type="checkbox"/> Assume silence means buy-in/engagement</li> <li><input type="checkbox"/> Spend much more than 3 months in planning phase</li> </ul>

Domain	Must Do	Considered Helpful	Try NOT to
 <p>6 Plan project monitoring</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Identify how/when 'in-project' assessments will occur to assess problems, deviations, and timelines</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Consider techniques for making iterative modification (e.g. PDSA)</li> <li><input type="checkbox"/> Look for local barriers and facilitators (e.g. to fix; to support; potential learning)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Forgo data use</li> </ul>
 <p>7 Plan end-of-project decision making</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Plan who assesses project success and how</li> <li><input type="checkbox"/> Identify who collects project learnings</li> <li><input type="checkbox"/> Plan who decides next steps (e.g. continue effort, revise, or sunset)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Assess extent to which project has delivered on its aims</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> End the project without assessing success, documenting learning, and making end-of-project decisions</li> </ul>
 <p>8 Planning complete?</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Verify planning steps completed</li> <li><input type="checkbox"/> Verify implementation site(s) are ready</li> <li><input type="checkbox"/> Decide go/no go (if 'go', proceed to launch; if 'no go', return to issues identified in planning)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Balance 'good enough' versus 'perfect'</li> <li><input type="checkbox"/> Address fixable items from planning phases</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Launch the project if more planning needed or proceed with project if too large/complex for resource level (people, time) and/or to implement</li> </ul>
 <p>9 Launch, monitor, finish</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Officially launch project</li> <li><input type="checkbox"/> Hold monitoring meetings where data is considered</li> <li><input type="checkbox"/> Assess project progress against protocol and timelines; make modifications as needed</li> <li><input type="checkbox"/> At completion, determine extent project aims achieved; collect learnings (on intervention and implementation); make decisions on continuing vs modifying vs sunsetting effort</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Employ feasible iterative changes as needed</li> <li><input type="checkbox"/> Report findings and learning</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Hold long and inactive meetings</li> <li><input type="checkbox"/> Allow project to continue without activity (e.g. do not languish)</li> <li><input type="checkbox"/> Allow effort to continue beyond projected end date unless new plan in place</li> </ul>
